ELSEVIER

Coastal Engineering 45 (2002) 285–286

Coastal Engineering
An International Journal for Coastal, Harbour and Offshore Engineers

www.elsevier.com/locate/coastaleng

Contents of volume 45

Research Papers

Modelling intensive near-bed sand transport under wave–current flow versus laboratory and field data
L.M. Kaczmarek and R. Ostrowski 1

Nearshore bar crest location quantified from time-averaged X-band radar images
B.G. Ruessink, P.S. Bell, I.M.J. van Enckevort and S.G.J. Aarninkhof 19

Wave runup, transmission, and reflection for structures armored with CORE-LOC®
I. Melito and J.A. Melby 33

Shear stress and sediment transport calculations for swash zone modelling
P. Nielsen 53

Vertical fluxes of sediment in oscillatory sheet flow
P. Nielsen, K. van der Wal and L. Gillan 61

Erratum

Erratum to "Scour around coastal structures: a summary of recent research" [Coastal Eng. 44 (2001) 153–190]
B. Mutlu Sumer, R.J.S. Whitehouse and A. Tørum 69

Research Papers

Simple and explicit solution of wave dispersion equation
J. Guo 71

Intense near-bed sediment motions in waves and currents
P. Dong and K. Zhang 75

An integral swash zone model with friction: an experimental and numerical investigation
R. Archetti and M. Brocchini 89

Influence of infiltration on suspended sediment under waves
C. Obhrai, P. Nielsen and C.E. Vincent 111

Book Review 125

Editorial

Introduction to the special issue "Surf- and swash-zone processes"
J. Fredsoe 127

Research Papers

Turbulence in the swash and surf zones: a review
S. Longo, M. Petti and I.J. Losada 129

Hydrodynamics and sediment transport in the swash zone: a review and perspectives
B. Elfrink and T. Baldock 149

Vertical variation of the flow across the surf zone
E.D. Christensen, D.-J. Walstra and N. Emerat 169

Morphodynamic modelling of rip channel growth
J. Damgaard, N. Dodd, L. Hall and T. Chesher 199

An experimental study of rip channel flow
N. Drønen, H. Karunarathna, J. Fredsøe, B.M. Sumer and R. Deigaard 223

PII: S0378-3839(02)00061-3

Reduction of sand demand for shore protection
A.J. Raudkivi and H.-H. Dette 239
Modelling morphological processes in the vicinity of shore-parallel breakwaters
J.A. Zyserman and H.K. Johnson 261

Contents of volume 45 285
